PRODUCT DESCRIPTION

The Epoch HD is a dual speed, multi-purpose 230V machine with the muscle to handle the toughest floor jobs. Used on low speed, the machine can be used as a traditional buffer for intercoat abrasion, fine finishing and polishing, or stain application. Used on high speed with the HydraSand, the Epoch acts as a planetary sander, abrading and flattening floors. Removable weights allow for various levels of aggressiveness.

RECOMMENDED PRODUCTS

AVAC dust containment systems are the perfect mix of power and portability. At 26 and 12 gallon capacities, both models are easy to transport and are available with optional H.E.P.A. filters.

Our water-based TimberGuard line of floor coatings, cleaners, and sealers offers superior protection for your hardwood floors.

The HydraSand attachment mounts to any rotary sander and utilizes six 5" pads mounted to a thick steel plate.
